

BINDEX 91

Description

ACRYLIC POLYMER IN AQUEOUS EMULSION

Specifications

<i>Appearance</i>	<i>Milky white liquid</i>
<i>Total solids (%)</i>	<i>23 – 25 %</i>
<i>pH</i>	<i>8,0 – 9,0</i>
<i>Charge</i>	<i>Anionic</i>

Employment Field

BINDEX 91 emulsion is a water-based acrylic dispersion that brings about a dry, hard and very shiny film. Its characteristics make it ideal for shiny, heat resistant finishes, and it is also used to reduce tackiness in some base coats formulations. BINDEX 91 is compatible with a large proportion of normally used finishing products; it is, however, advisable to add it to blends after slightly diluting them.
