ACRYLIC POLIMERY IN WATER EMULSION

---

### Specifications

<i>Appearance</i>	<i>Straw yellow</i>
<i>Total solids (%)</i>	<i>22,0 +/-1,0 %</i>
<i>pH</i>	<i>8,6 – 9,2</i>
<i>Charge</i>	<i>anionic</i>

---

### Employment Fiel

*BINDEX BL 21 is an acrylic emulsion in water, that can be added to water-based or solvent-based top coats in order to give a pleasant, greasy sensation to the touch.*

*We recommend the addition of 1% to 3% in BINDEX BL 21 in the top coats blend.*

*It is successfully used in the production of leathers with a greasy touch with pull-up effects, where it gives a lasting non-slippery effect to the touch.*
