### Employment Field

*BINDEX SRI is a soft acrylic polymer with ultra-fine particles, designed for the impregnation of corrected grain leathers. Thanks to its excellent penetration characteristics and its particular formulation, it eliminates grain breaks defects without hardening the leather, and improves finish adhesion. It is generally used for roller-coat applications or in the curtain coating machine, combined with LIVELLANTE WS-15 in the following proportions:*

<i>BINDEX SRI</i>	<i>250-350 pp</i>
<i>LIVELLANTE WS-15</i>	<i>50-200 pp</i>
<i>Water</i>	<i>650-450 pp</i>
