

PRIMEX UB 19

Description

Specifications

<i>Appearance</i>	<i>Traslucid</i>
<i>pH</i>	<i>8.0-9.0</i>
<i>Charge</i>	<i>Anionic</i>

Employment Fiel

Prinex UB 19 is a particular polymer based on polyurethane extremely soft with ultra-fine particle size, studied to improve adhesion characteristics. His softness and excellent power of penetration allow re-adhesion also on leather surface previously treated with oils and waxes.

It is also used as impregnation binder to improve leathers looseness on both full grain and corrected grain, maintaining in haltered the original softness of leather.

Primex UB 19 is a product universally used in any type of finishing where excellent adhesion is needed and is fully compatible with most of common finishing products.
