Specifications

Appearance	<i>cream white emulsion</i>
pH (dil. 1:10)	7,0 - 9,0
Charge	<i>anionic</i>
Total solids (%)	27 %

Employment Fiel

BASE PF is a legante ceroso designed for full grain leather finishing or for shoes leather. It gives the following characteristics: good covering, softness and excellent millness. Thanks to its excellent potere di filmazione si presta anche per pellami leggermente carteggiati (carta max. grana 400) previa leggera stiratura.

The leather finished with BASE PF is very soft and it has a natural feel. This resin has excellent wet and dry rub resistance.
