

## BINDER M-SM 577

---

### Description

Acrylic polymer and wax in water emulsion

---

### Specifications

Appearance	Milky creamy
Total solids (%)	17 – 18 %
pH	7,5 – 9,5

---

### Employment Field

*BINDER M SM 577 is a compact binder for base coat finish extremely soft and resistant, designed for garment leather finishing. Thanks to its high levelling capacity and waxy feel it provides excellent surface uniformity maintaining a very natural look. Is also has excellent characteristics in terms of light fastness and resistance to prolonged milling operation. It is generally used alone or with the addition of CERA ST to achieve more waxy and pleasant feel.*
