

BINDER M-SM 532

Description

PRODOTTO COMPOUND

Specifications

<i>Appearance</i>	<i>white creamy emulsion</i>
<i>Dry residue (%)</i>	<i>24 - 26%</i>
<i>pH</i>	<i>8,0-9,5</i>
<i>Charge</i>	<i>anionic</i>

Employment Field

Binder M-SM 532 is a product based on acrylic, polyurethane polymers and dulling agent selected to obtain base coat with high fastness characteristics excellent print retention and softness.

It is mainly used as base coat on buffed leather for upholstery where particularly high physical resistance is required .

Finishing system using Binder M-SM 532 as base coat than top coated with products of AQ System series are resulting soft with pleasant feel and very high resistance to wet rub and flexes even at low temperature.

It is generally used by airless or roller coat application with the addition of 10 - 15% of pigment at a viscosity around 50''-60'' measured with Ford cup nr.4. giving a very smooth and equalised surface .
