

## BINDER SJH 3

---

### Description

---

### Specifications

<i>Appearance</i>	<i>White milky emulsion</i>
<i>Dry residue (%)</i>	<i>24,0 +/- 1 %</i>
<i>pH</i>	<i>8,5-9,5</i>

---

### Employment Field

*BINDER SJH 3 is a product based on polyurethane binders, integrated with selected acrylic polymers and matting agents, designed to attain base coat with very high covering power together with print retention and softness .*

*BINDER SJH 3 is employed in finishing systems for "sports shoe upper" leathers where outstanding physical resistance and light fastness are required .*

*It is generally used in addition with pigments in percentage variables from 14 to 17% in application by rollercoater or spray resulting non tacky, embossable maintaining excellent characteristics of re-adhesion between various application coats .*
