

BINDER YL/2

Description

Specifications

<i>Appearance</i>	<i>white creamy emulsion</i>
<i>pH (dil. 1:10)</i>	<i>8,0 – 9,0</i>
<i>Charge</i>	<i>Anionic</i>
<i>Dry residue (%)</i>	<i>24 ± 1 %</i>

Employment Field

BINDER YL/2 is a compact binder for base coat applications where a particular covering power and matt appearance is required.

BINDER YL/2 has excellent print retention which resists after long milling operation.

This characteristic together with good adhesion and wet rub resistance makes it the ideal choice for buffed leathers.

It is generally used, with the addition of 6-8% of pigment, by airless or roller-coater, adjusting the viscosity around 50"-60" (Ford cup nr.4.).
