

## DULL S/D

---

### Description

MATTING AGENT IN AQUEOUS DISPERSION

---

### Specifications

<i>Appearance</i>	<i>Whitish fluid</i>
<i>Active matter (%)</i>	<i>22-24%</i>
<i>pH</i>	<i>8.5-10</i>
<i>Charge</i>	<i>Anionic</i>

---

### Employment Field

*DULL S/D is a matting agent based on selected type of silica and synthetic polymers used in base coats and colour coats of various types of finish to achieve matt effect. Its particular formulation makes DULL S/D the ideal choice to obtain finishes with a very natural look together with excellent surface coverage and uniformity. It facilitates the formation of dry films and reduces the tackiness without compromising resistance to wet rubbing and flexing.*
