

## BINDER K 50

---

### Description

Cationic stucco for roller and spray application

---

### Specifications

<i>Appearance</i>	<i>White high viscous paste</i>
<i>Dry residue (%)</i>	<i>16 ± 2</i>
<i>pH (dil. 1:10)</i>	<i>4,5 ± 1</i>
<i>Charge</i>	<i>cationic</i>

---

### Employment Field

*BINDER K 50 is a cationic high viscosity paste based on selected film forming polymer resins, waxes and special fillers. It is applied by roller coater or by spray machine previous dilution 1:1 with water on leathers for upholstery, shoe upper, hand bag and garment in order to mask and to cover defects leaving the surface appearance very matt. BINDER K 50 can also be embossed or ironed after application in order to further increase his covering power on defects. BINDER K 50 can be mixed with all the cationic products of our range. Thanks to his particular formulation BINDER K 50 is allowing optimal adhesion on both leather and all successive finishing layers.*

*Products appearance is a tick paste. Beware of mixing well product before use.*
