

## BINDER K 640

---

### Description

Binder based on plasticized casein.

---

### Specifications

<i>Appearance</i>	<i>opalescent fluid</i>
<i>Dry residue (%)</i>	$6 \pm 1$
<i>pH</i>	$3,5 \pm 1$
<i>Charge</i>	<i>cationic</i>

---

### Employment Field

*BINDER K 640 is mainly used as auxiliary on pre-bottom and covering coats of the cationic finishing in order to reduce and uniform the absorptions of the leathers, increasing the filling power of the finishing, increasing the softness, the silky touch and the naturalness of the finished leather, eliminating most of the low grains without affecting the adhesion of the following finishing layers.*
