---

### Employment Fiel

*WAX FINISH 2642 is a mix of natural and synthetic wax emulsified forming a dull film when dried.*

*When used in colour base coat this product increase covering power improving uniformity and in same time reducing tacking of the binders in which it mixed .*

*Thanks to his anforteric characteristics it can be used in cationic and anionic leather finishing formulations providing a nice touch .*

*WAX FINISH 2642 is perfectly polishable thus is used for 'whitish' polished type of effect on shoe upper .*
