

WAX FINISH K 25

Description

WAX EMULSION

Specifications

<i>Appearance</i>	<i>Straw coloured emulsion</i>
<i>Total solids (%)</i>	<i>19 – 21 %</i>
<i>pH</i>	<i>5,5 – 7,0</i>
<i>Charge</i>	<i>low cationic</i>

Employment Fiel

WAX FINISH K 25 is a slightly cationic wax emulsion in water, offering particular characteristics in terms of the feel and touch of the leather. Thanks to his particular composition, it is used in both cationic and low anionic recepy, for full grain or corrected grain leathers , to attain finishing with extremely light, soft characteristics together with good uniformity and covering.
