

## SYNTAL 13

---

### Description

Watery emulsion of silicons

---

### Specifications

<i>Appearance</i>	<i>viscous fluid whitish</i>
<i>Dry residue (%)</i>	$40 \pm 2$
<i>pH</i>	$7,5 \pm 1$
<i>Charge</i>	<i>anionic</i>

---

### Employment Fiel

*SYNTAL 13 can be used alone or together with protein binders or nitroemulsion in water. It is employed in fixatives for garments and furniture as feel modifier.*

*SYNTAL 13 gives to final finish a silky and fresh feel, slippery, without greying problems; furthermore it doesn't alter the brightness and the final aspect of leather.*

*Considering its high concentration we recommend to apply SYNTAL 13 at a rate between 3–6 % on top coat mixtures.*
