

## AQ SYSTEM 439 LUX

---

### Description

---

### Specifications

<i>Appearance</i>	<i>milky liquid</i>
<i>Total solids (%)</i>	<i>15,5-16,5</i>
<i>pH</i>	<i>9-10</i>

### Employment Fiel

*AQ SYSTEM 439 LUX is a shiny aliphatic polyurethane polymer in water dispersion with excellent light fastness characteristics, studied as a top coat finishing product for several kinds of leather. It can be used as top coat for upholstery ,shoe upper and hand bag leather where shiny and transparent fixing polymer is required. It can be used in combination with AQ SYSTEM MATT series in order to balance the degree of dull required resulting in very easy and flexible water born top coat system. It is generally cross linked with TOP RT CONC. (1-2 %) developing excellent wet rub resistance without changing feels and softness. AQ SYSTEM 439 LUX is a ready to use products. Mix very well before using.*
