

AQ SYSTEM R3

Description

Specifications

<i>Appearance</i>	<i>milky liquid</i>
<i>Total solids (%)</i>	<i>14±1</i>
<i>pH (dil.1:10)</i>	<i>8,5-9,5</i>

Employment Fiel

AQ SYSTEM R 3 is an aliphatic polyurethane polymer in water dispersion with the characteristics of forming a dull film that is re-polishable during dry mill operation .

It is studied as a top coat product for soft embossed of natural grain upholstery leathers where the particular type of "glossy/matt " effect on grain is required .

AQ SYSTEM R3 gives to leathers a pleasant feel and excellent final aesthetics .

It is generally cross- linked with CRX isocyanate series (5-7 %) developing good wet rub resistance and general fastness, without changing his feel and softness .

AQ SYSTEM R3 is a ready to use product. Mix very well before using.
