

## WASSERLAC 2190 MATT

---

### Description

Emulsion in water of modified nitrocellulose

---

### Specifications

<i>Appearance</i>	<i>White fluid</i>
<i>Dry residue (%)</i>	<i>16,0 +/- 1,0 %</i>
<i>Flammability</i>	<i>34 ° C seta flash method</i>

---

### Employment Fiel

*WASSERLAC 2190 MATT is a particular emulsion of a plasticized nitrocellulose in water/solvent system producing a matt finish .*

*It is successfully used as final top coat to achieve different degree of matt finishing for leather items such as shoe upper , garment or leather goods in general providing a smooth and soft pleasant final touch .*

*It is generally employed in dilution 1:1 in water and is perfectly compatible with other nitrocellulose emulsion in case different balance of matting is required .*
